

CISD – PROJECT PIRATE PROTECT

Welcome to *PROJECT PIRATE PROTECT*. This plan will implement a process for students, parents or teachers to make an anonymous tip to administrators and counselors if they are concerned about the safety of a student in our district.

Students can make an anonymous tip by completing a written form and giving it to a teacher, counselor or administrator. Drop boxes will also be placed on campus for students to use to report their concerns. Forms are readily available in all classrooms and in the library, cafeteria and counselor's office.

Parents can make a tip by downloading the proper form from the school website.

When a tip is turned in all reports will be taken seriously and will be checked out by an administrator or counselor. Parents will be notified when their student is identified as needing assistance or is the subject of an anonymous concern. Appropriate action by administrators will be taken with consideration to the situation and the age/maturity of the student. Disciplinary infractions will be handled in accordance with CISD Discipline Code and student handbook guidelines.

Please see the *Pirate Protect* form.
